

## SciChart.iOS Documentation

The SciChart iOS v2.x Documentation has been moved online. Please find the latest, up-to-date documentation at <https://www.scichart.com/ios-chart-documentation>

## SciChart.iOS Examples

A list of SciChart iOS examples can be found online at <https://www.scichart.com/ios-chart-examples>

Full source code for the SciChart iOS Examples, Showcase apps and Tutorials is now published to Github.

You can find this at the following URL: <https://github.com/ABTSoftware/SciChart.iOS.Examples>

## SciChart.iOS Framework Files

The SciChart.iOS Framework is now published to Cocoapods to the following URL: <https://github.com/ABTSoftware/PodSpecs>. For more information on setting up Cocoapods, please see our Documentation at <https://www.scichart.com/ios-chart-documentation>

## Xamarin.iOS

SciChart iOS now supports Xamarin.iOS Bindings. You can find the Xamarin.iOS Examples Source code at <https://github.com/ABTSoftware/SciChart.Xamarin.Examples>.

## Xamarin.iOS DLLs

The binding libraries for SciChart.iOS Xamarin are hosted by our NuGet feed at <https://www.myget.org/feed/abtsoftware/package/nuget/SciChart.iOS>
