

SciChart Android Reference

Licensing Wizard

To activate your purchased license please download the Licensing Wizard for Mac:

<https://github.com/ABTSoftware/SciChart.LicenseWizard/releases/latest/download/SciChart-Licensing-Wizard.dmg>

Or for Windows:

<https://github.com/ABTSoftware/SciChart.LicenseWizard/releases/latest/download/SciChart-Licensing-Wizard.exe>

SciChart.Android Documentation

SciChart latest and improved documentation for SciChart Android v3.x can be found here:

https://www.scichart.com/documentation/android/current/SciChart_Android_v3_SDK_User_Manual.html

SciChart.Android Examples

A list of SciChart Android examples can be found online at:

<https://www.scichart.com/examples/android-chart/>

The full source code for the SciChart Android Examples and Tutorials is published to GitHub and can be found here:

<https://github.com/ABTSoftware/SciChart.Android.Examples>

SciChart.Android Framework Files

The SciChart.Android Framework is now published to Maven to the following URL:

<https://www.nuget.org/packages/SciChart.Android/>

For more information on setting up Maven, please see our Documentation at:

<https://www.scichart.com/documentation/android/current/Tutorial%201%20-%20Adding%20SciChart%20libraries%20as%20dependencies.html>

Xamarin.Android

SciChart Android supports Xamarin.Android Bindings. You can find the Xamarin.Android Examples Source code at:

<https://github.com/ABTSoftware/SciChart.Xamarin.Examples>

Xamarin.Android DLLs

The binding libraries for SciChart.Android Xamarin are hosted by our NuGet feed at

<https://myget.org/feed/abtsoftware/package/nuget/SciChart.Android>

The nightly builds can be found here:

<https://myget.org/feed/abtsoftware-bleeding-edge/package/nuget/SciChart.Android>
