

# SciChart iOS Reference

## Licensing Wizard

To activate your purchased license please download the Licensing Wizard for Mac:

<https://github.com/ABTSoftware/SciChart.LicenseWizard/releases/latest/download/SciChart-Licensing-Wizard.dmg>

Or for Windows:

<https://github.com/ABTSoftware/SciChart.LicenseWizard/releases/latest/download/SciChart-Licensing-Wizard.exe>

## SciChart.iOS Documentation

SciChart latest and improved documentation for SciChart iOS v3.x can be found here:

<https://www.scichart.com/documentation/ios/current/index.html>

If you require the iOS v2.x documentation, it can be found here, but please note that we no longer support this version:

[https://www.scichart.com/documentation/ios/v2.x/SciChart\\_iOS\\_v2\\_SDK\\_User\\_Manual.html](https://www.scichart.com/documentation/ios/v2.x/SciChart_iOS_v2_SDK_User_Manual.html)

## SciChart.iOS Examples

A list of SciChart iOS examples can be found online at:

<https://www.scichart.com/examples/ios-chart/>

The full source code for the SciChart iOS Examples and Tutorials is published to GitHub and can be found here:

<https://github.com/ABTSoftware/SciChart.iOS.Examples>

## SciChart.iOS Framework Files

The SciChart.iOS Framework is now published to Cocoapods to the following URL:

<https://github.com/ABTSoftware/PodSpecs3.x>

Shall you require SciChart.iOS v2.x, you may find it here:

<https://github.com/ABTSoftware/PodSpecs>

For more information on setting up Cocoapods, please see our Documentation at:

<https://www.scichart.com/documentation/ios/current/integrating-scichart-libraries.html#integrating-scichart-using-cocoapods>

## Xamarin.iOS

SciChart iOS supports Xamarin.iOS Bindings. You can find the Xamarin.iOS Examples Source code at:

<https://github.com/ABTSoftware/SciChart.Xamarin.Examples>

## Xamarin.iOS DLLs

The binding libraries for SciChart.iOS Xamarin are hosted by our NuGet feed at

<https://myget.org/feed/abtsoftware/package/nuget/SciChart.iOS>

The nightly builds can be found here:

<https://myget.org/feed/abtsoftware-bleeding-edge/package/nuget/SciChart.iOS>
