

SciChart iOS v3.x Getting Started Guide

Getting Started Guide

To get started with SciChart for iOS take a moment to read this helpful guide online:

<https://www.scichart.com/getting-started-scichart-ios/>

Starting a Trial

To start a trial, you will need to download & install the Cross Platform Licensing Wizard. Take a moment to do this by following the steps from <https://www.scichart.com/licensing-scichart-ios/>

SciChart.iOS Documentation

SciChart latest and improved documentation for SciChart iOS v3.x can be found here:

<https://www.scichart.com/ios-chart-documentation>

SciChart.iOS Examples

This SciChart iOS SDK zip contains the source-code to the scichart examples in Swift and Objective-C. Find out how to compile it and get started here: <https://www.scichart.com/getting-started-scichart-ios/>

Useful Links

The above getting-started guide should be your starting point, but useful links are also included below.
